

AIPHONE[®]

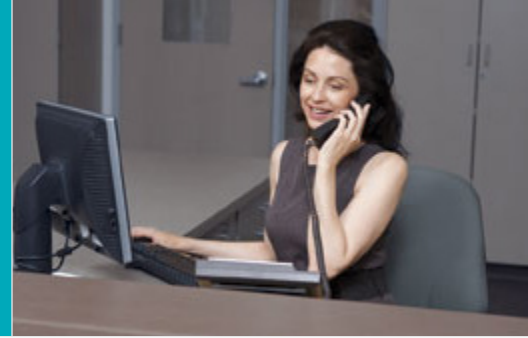

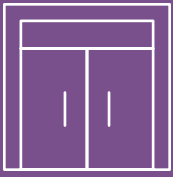

K-12 School Districts & College Campuses

Security & Communication Solutions

Offering an array of access control and communication products designed for school security and student safety.

Control Access with Door Stations

- Keep all entrances locked during school hours
- Install door stations to provide calling points for parents and visitors to request access into your school
- Protect interior locations with access control too, such as server rooms, computer labs, or any restricted areas
- Card reader stations are a convenient option for faculty and other authorized personnel to quickly gain access

Empower Office Staff with Master Stations

Be Aware:

- Clearly identify visitors
- Unlock the door after intent has been determined
- Monitor activity throughout entire school or campus
- Use as visitor management

Alert & Notify:

- Immediately call other offices and classrooms for 2-way communication
- Make general paging announcements or broadcast emergencies
- Use convenient bell scheduling for routine class changes or unpredictable events

Respond & Reach with Classroom/Call Stations

- Answer calls and pages from main office/reception
- Reach office staff directly from classroom (or from a dorm room if the application is for student housing)
- Have open or private conversations

Provide Help Points with Emergency Stations

- Get immediate help with emergency calling
- Dual-button stations available for general and emergency calls
- Choose your preferred mounting solution: flush or surface mount directly to wall or mount into emergency towers or wall boxes

Secure Remote Areas with Wall Boxes

Ideal for:

- Parking lots
- Stairwells
- Any area where trouble might lurk
- Parking garages
- Hallways

Secure Campuses with Towers

- Deter prowlers with highly visible emergency towers
- Provide students and staff help points across your entire campus

Serious about school pride?

Towers can be customized with your school color choice.

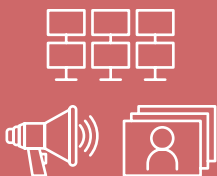

Broadcast Pages & Alerts

- Integrate with your PA system so all pages, alerts, and bell notifications can be clearly heard throughout your school

Connect with 3rd Party Devices

- Capture a more comprehensive picture of the situation with CCTV camera integration
- Log activity for more accurate and detailed record-keeping

Need proof a visitor was at your school? Save images to an NVR and reference them later if evidence is needed.

Options. Options. Options. And then more options.

Select from simple, audio-only systems to comprehensive, IP video security solutions.

Have confidence your students, faculty, and assets will remain safe from potential threats with a trusted Aiphone security communication solution. From classrooms to common areas, we offer a breadth of security solutions to apply throughout your school, campus, or entire district.

Save with Centralized Security

With an Aiphone IP intercom system, a single person can regulate access and monitor school grounds across an entire networked campus or district. Regardless of building sizes – or the distances between them – you can connect virtually every building together.

- ✓ *Reduce overhead for added security staff and resources*
- ✓ *Avoid high costs of running new wire by reusing existing network cable*
- ✓ *Eliminate recurring, costly licensing fees*

Aiphone provides critical elements to maintain the security of your school and everyone in it.

Enterprise Security – Communication You Can Trust

First intercom manufacturer in North America to receive ISO 9001 Certification

The International Standards Organization (ISO) 9001 certification is a globally-recognized mark of quality in product design and development, production, inspection, and testing. Aiphone is the first intercom manufacturer worldwide to receive ISO 9001 certification.

Only intercom manufacturer to win the Deming Prize

The Union of Japanese Scientists and Engineers awards the exclusive Deming Prize to a handful of companies, wowing them with their total quality management. Aiphone is the first and only intercom manufacturer to earn that honor.

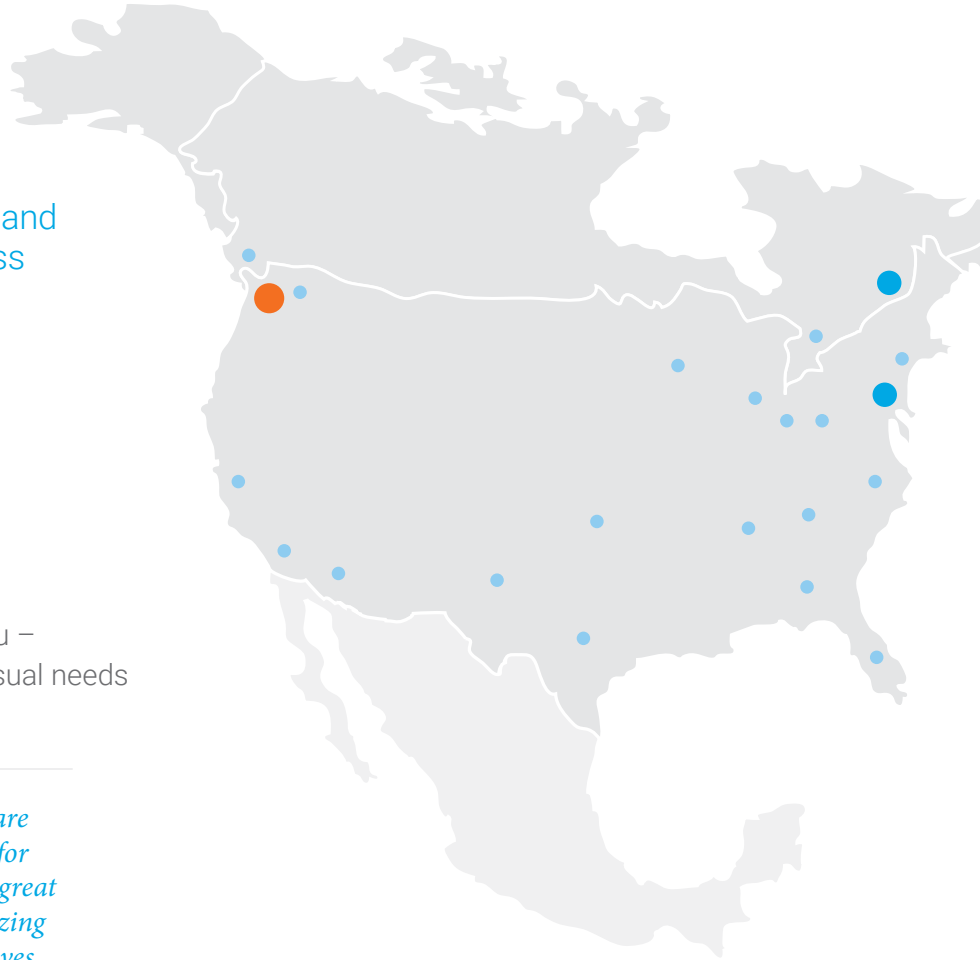

Local Service – World Class Support

Aiphone provides the training, support, and service you want to ensure your success

- Comprehensive product knowledge, so you are always expertly informed
- Specify products 24/7 with QuikSpec Plus
- Ready to provide you online and in-person training, top-notch technical support, and friendly customer service
- Ask how we can customize a solution for you – we offer systems for highly specified or unusual needs

I am impressed with the level of customer care I receive each time I contact your company for technical assistance. Not only do you make great products that last forever, you have an amazing technical team ready via quick chat. This saves me a lot of time. Keep up the great work Aiphone!
